23. (Internal Use Only - PLC) LEGISLATION Met with Bill Hogan, Counsel, House Armed Services Committee, and gave him a paper listing the similar provisions in H. R. 13615, to amend CIARDS, and the Foreign Service Amendments, S. 3168, which is in conference. Hogan will use this in his presentation before the Rules Committee. He did not know whether Chairman Melvin Price (D., Ill.) had yet called the House majority leader to urge calendaring of H. R. 13615.

24. (Internal Use Only - PLC) LEGISLATION Met with Dennis Taylor, Legislative Counsel to House Minority Leader John Rhodes (R., Ariz), and discussed the urgency of calendaring floor action for H. R. 13615, to amend CIARDS. He said he will do all he can and will have Minority Leader Rhodes contact the Speaker. He will push for calendaring the first week after the recess. I also met with Leo Diehl, Administrative Assistant to House Majority Leader Thomas O'Neill (D., Mass.). He said the calendar is jammed but a call from Chairman Melvin Price (D., Ill.), House Armed Services Committee, to the majority leader might clear it for floor action the first week after the recess. Linda Melconian, Legislative Assistant, Office of the Majority Leader, asked that I call her next week to see what can be worked out.

25. (Internal Use Only - PLC) LIAISON Met with Fred Asselin, Senate Government Operations Committee staff, to discuss further the Committee's investigation of the security of the Agency's computer system. I picked up several copies of the Committee's report, a Committee handout, and a copy of the Committee's report to Defense which gives a broader insight into the Committee's investigation though few of the issues raised therein will apply to the Agency. The members of the Agency group participating in the investigation will review the material and a meeting with Asselin will later be arranged.

26. (Internal Use Only - PLC) LIAISON Called Tim Ingram, Staff Director, House Government Operations Subcommittee on Government Information and Individual Rights, and confirmed a briefing tomorrow morning at 0900 hours on Agency record systems to be given by  STAT  
 C/SS/DDO, and  DDA/FOIA, in  office. STAT
